

Mark Paisey

Most of you already know me and where I am in the Park. But those that don't, I'm site 38, just in front of the playground. We've been a part of the Riverside Family since 1997 and as a family we still love coming to the Park and enjoying everything we've all helped to build.

I was part of the original purchasing committee in 2007 and Chairman of the Board from 2008 – 2016, stepping down for some well earned R&R and manage a renovation on our family home in Albany.

I have in the past two years' been assisting the Board of Riverside on the completion and handover of the EcoCare Sytem to the KDC and manage the sale of our new shares created by the sewerage project.

Always happy to listen to Shareholders requests and suggestions and now with recharged batteries, I am putting my name forward for the Board to assist the Company achieve its goals for future projects and help steer these in the right direction for our Shareholders. I am very passionate about our Park and look forward to serving you if elected.

Thank you

Mark Paisey
